Did you know? The credit card industry (PCI) requires all merchants to be PCI DSS compliant and report their compliance yearly to merchant services. Additionally, merchant services are required yearly to collect and monitor the PCI DSS compliance reports of their merchants.

What is PCI DSS?

"The Payment Card Industry Data Security Standard (PCI DSS), a set of comprehensive requirements for enhancing payment account data security, was developed by the founding payment brands of the PCI Security Standards Council, including American Express, Discover Financial Services, JCB International, MasterCard Worldwide and Visa, Inc. to help facilitate the broad adoption of consistent data security measures on a global basis."

- pcisecuritystandards.org

Business Description: TurboPCI is at the forefront of providing the most effective, efficient and affordable solution for merchants on the market today. We help our customers understand, implement and report PCI DSS compliance to their banks, credit unions, ISOs or other merchant services. Our people and partners are passionate about understanding and using innovative technologies to deliver progressive, cost-effective learning results. TurboPCI is committed to being the easiest company with which to do business, and making each customer our strongest, most positive advertisement.

Background: In June 2007, the founders began to devote their time to researching and gathering information concerning the development of an educational portal that would assist Level 3 and 4 merchants in the rapid deployment of PCI DSS compliance. Through the research they discovered three critical elements, which ultimately incited the decision to develop an educational enterprise. 1) There are rapid and systemic education needs in the merchant environment nationally and globally. 2) There is awareness that technology can allow easy access to learn anytime, anywhere and at any pace. 3) The advances in affordable technology may be coupled with cost effective, reliable digital communication devices. TurboPCI's offerings were developed with these elements in mind in an effort to provide economic and informational advantages for our customers.

Mission: TurboPCI delivers solutions that meet customers' needs today and provide a solid foundation for tomorrow. Members of the TurboPCI team have remained true to the company's core philosophy -- to produce win-win relationships. As our motto says: "We take the pain out of compliance."

Products and Services:

Our products are developed by educators who are trained in the PCI DSS requirements by PCI Security Standards Council. At TurboPCI we understand how people learn. We also understand not all merchants are comfortable using the Internet and prefer instruction-led training. Our products are easy to use, easy to understand and easy to implement for PCI DSS compliance.

TurboPCI™ - Our online portal, customized to the compliance needs of the customer, mentors and guides the customer through the each step necessary for PCI DSS compliance. PCI DSS policies, forms and plans are available for downloading. TurboPCI targets customers who business practices are classified as validation types 1, 2, 3 or 4 by the PCI Security Standards Council. Through APIs, merchant services can electronically receive merchants' yearly SAQs.

TurboPCI Easy™ Workbook- Our programmed instructional workbook mentors and guides the customer through each step necessary for PCI DSS compliance. PCI DSS policies, forms and plans are available on CD. The TurboPCI Easy Workbook targets customers who business practices are classified as validation types 1, 2, 3 or 4 by the PCI Security Standards Council.

TurboPCI™ Workshops- TurboPCI workshops, designed for Level 3 and 4 Merchants are held across the United States for those merchants who want instructor-led training. These engaging one day, skills-based workshops are conducted by leading PCI QSAs using the TurboPCI Easy™ Workbook.

TurboPCI™ Compliance Binder 2008- The TurboPCI™ Compliance Binder provides an organized system for customers to protect and retain all their yearly compliance documents. PCI requires merchants to retain their compliance documents for a period of not less than 3 years.

PCI Consulting- Our Team of Qualified Security Assessors (QSAs) is trained and certified by the PCI Security Council. We can assist all levels of merchants with understanding the requirements, performing PCI gap analyses, developing remediation plans and performing PCI DSS Assessments.
