

2008 Compliance Officer Training Seminars

for HIPAA Privacy & Security and PCI DSS*

This could be the most critical time of your career... It is time to look at the big picture ...Learn how to apply proven compliance techniques that reduce your practice's liabilities and risk of fines, penalties and losing the ability to take credit cards.

Take this opportunity to get the training you need to become proficient at managing the mandated privacy and security requirements of your patient's information taught by internationally certified PCI and information security experts.

Who should attend?

Compliance Official, Office Manager, HIPAA Security Official, HIPAA Privacy Official and other individuals who are responsible for leading HIPAA and PCI DSS Compliance.

How you will benefit?

In each one-day certification course you will learn how to create and manage an effective HIPAA Privacy/Security Program that will bring your practice into compliance with the **HIPAA Privacy and Security Rule** as well as the **Payment Card Industry Data Security Standards (PCI DSS)** as required by your Merchant Services. You will focus on the key components of the requirements and gain a clear understanding of the steps you must take to implement a sound information security plan. You will identify the core privacy and security functions that are critical to securing the paper and electronic operations of your practice. You will learn how to comply with Payment Card Industry and maintain verification of compliance. These two intense courses will also help you evaluate the myriad of third-party technology solutions, such as EMR and document management systems, currently on the market.
